"Building Bridges—Sharing Christian Science"

First Church of Christ Scientist, Decatur, AL
Metaphysical Prep Meeting for your lecture at The Terrace at Priceville on
May 16—"It's Never Too Late for Healing"

Ever tried to share Christian Science or invite someone to a lecture and heard:

- No way, that's a cult!
- Isn't that Scientology?
- I don't believe in God or religion
- I have my own religion
- Why don't you go to doctors?
- Didn't God make everything including medicine?
- If God is so good, why is there so much suffering in the world?

Bring your questions and join me **Friday, May 15 at 7:00pm** for a metaphysical talk on how to build bridges with people when sharing Christian Science, whether they're Muslim, Hindu, Buddhist, Catholic, Jewish, born-again, atheist..... This is a universal Science and the Comforter promised to all mankind!

"When the Science of being is universally understood, every man will be his own physician, and Truth will be the universal panacea." (*Science & Health*, 144:27, Mary Baker Eddy)

Here are some questions and passages to consider for this interactive talk on **May 15**:

- 1) Why is Christian Science the Comforter promised to all mankind?
- 2) How does it speak to people of every faith and even those who have no faith tradition?
- 3) What is the role of the Christ in healing; why is it universal, not denominational; why is an understanding of and obedience to Christ crucial to our ability to heal?
- 4) How can we resist the carnal mind's attempt to exclude God, Christ and Mrs. Eddy from the public dialogue on spiritual healing?
